

Configure Your Island Workstation to Fit Your Clinic

Island Workstations

VSSI Island Workstations are ideal when designing your clinic's exam/treatment area. The basic configurations are shown on the next two pages. However, there are many options when it comes to exam cabinets, wet/prep cabinets, lights and x-ray viewers.

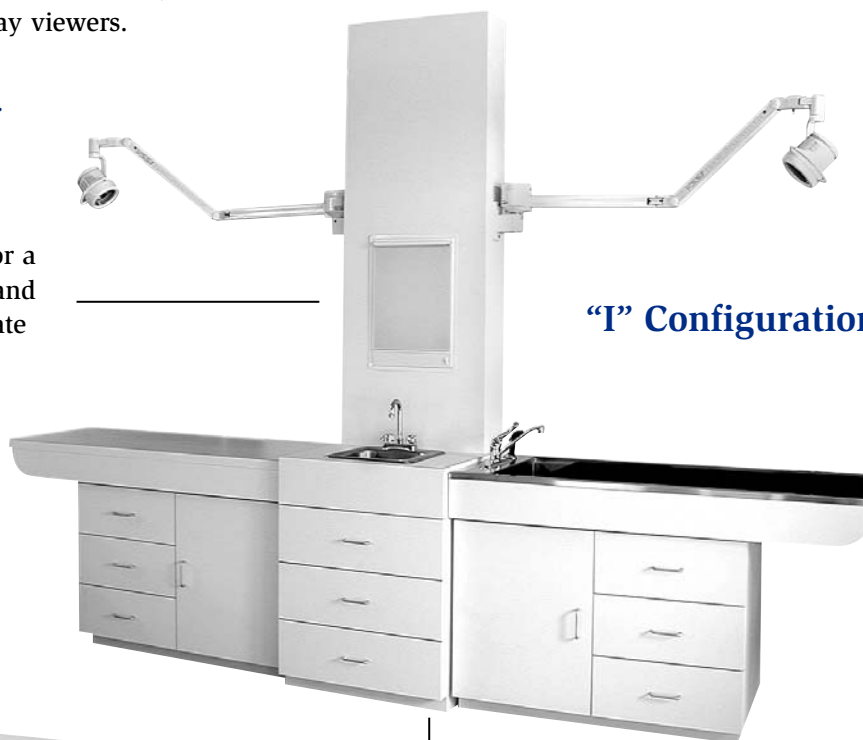

Call a VSSI sales representative to help with your custom design.

Drawers and Doors Are Available On Either Side of Cabinet

Rectangular

Island Chase works best for a straight island configuration and can be ordered to accommodate an X-Ray Viewer.

see page 44 for ordering information ►

“I” Configuration

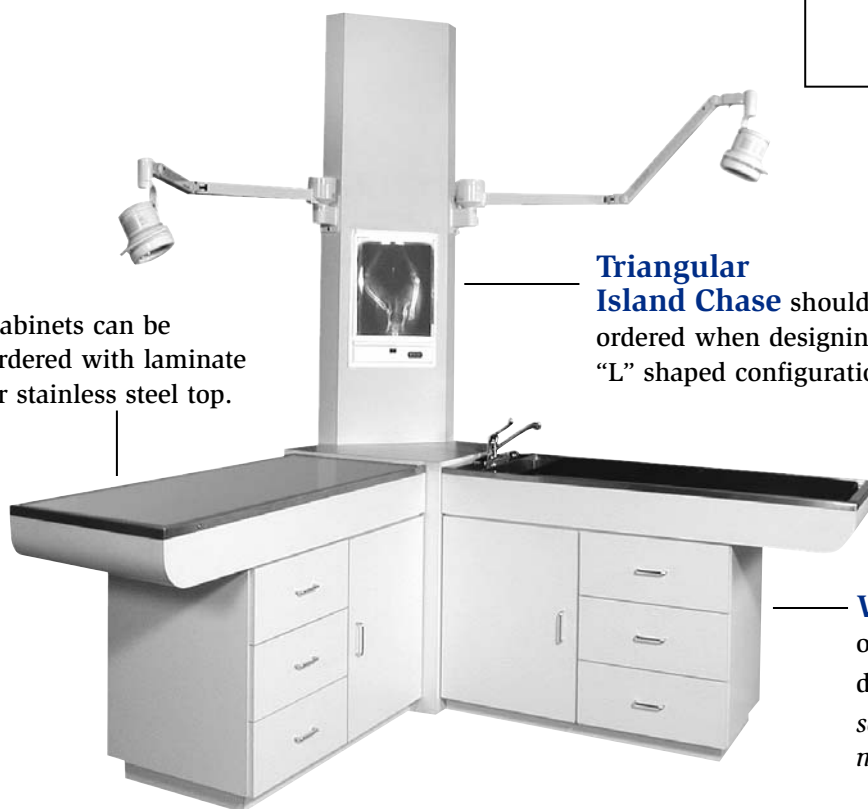

Door and drawers add more storage space to your clinic.

Island Base available with two doors or three drawers and can be ordered to accommodate a hand sink.
see page 44 for ordering information ►

Cabinets can be ordered with laminate or stainless steel top.

Triangular

Island Chase should be ordered when designing an “L” shaped configuration.

“L” Configuration

Wet/Prep Cabinets can be ordered in various sizes and with different door/drawer configurations.
see pages 46-49 for more information ►

Island Workstations Make the Most of Your Work Area

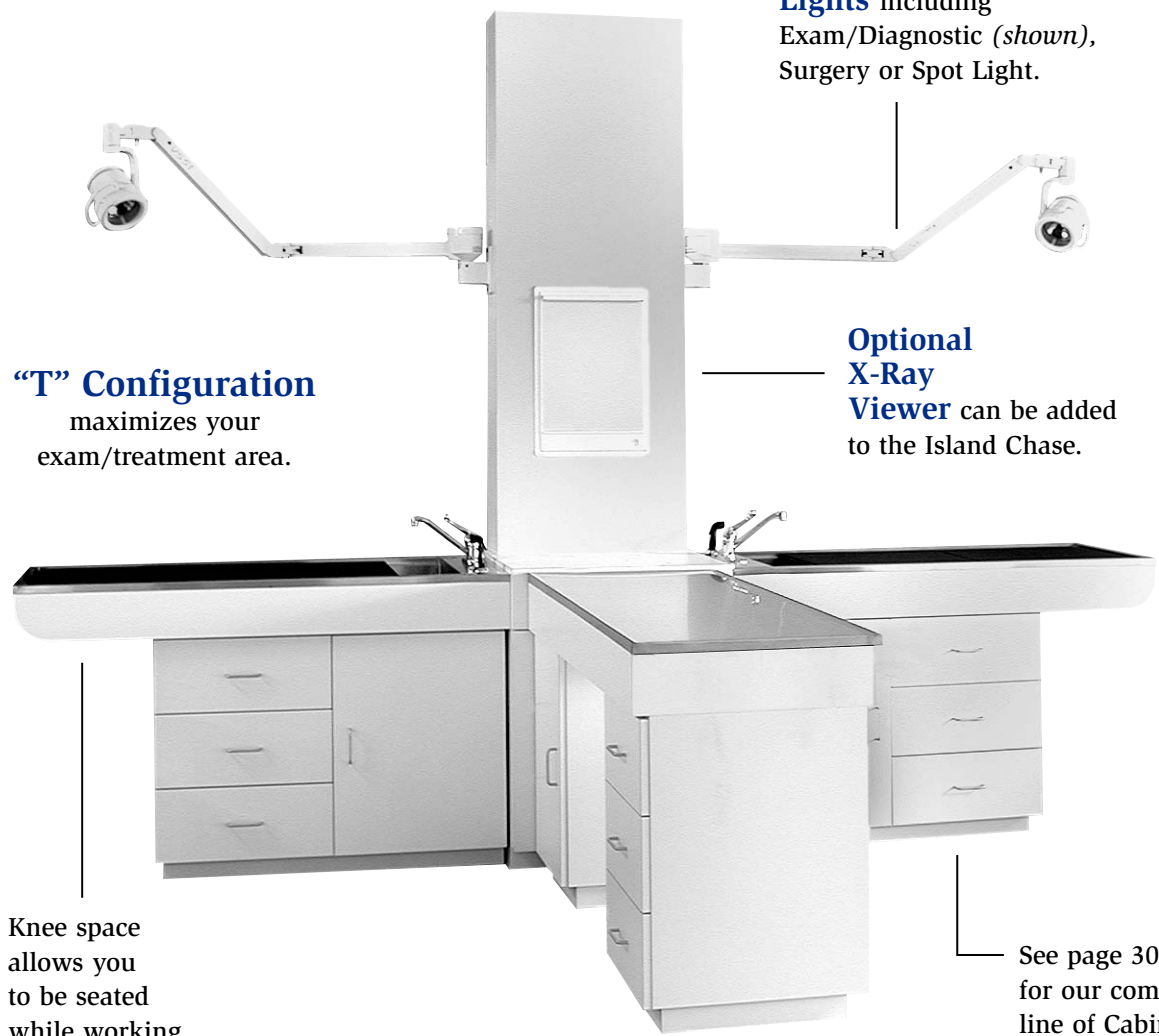

Attractive Sleek Design

Island Chase
allows you to conceal unsightly utility pipes and wires.

Optional Lights including Exam/Diagnostic (*shown*), Surgery or Spot Light.

“T” Configuration
maximizes your exam/treatment area.

Optional X-Ray Viewer can be added to the Island Chase.

Knee space allows you to be seated while working.

See page 30-36 ▶ for our complete line of Cabinets.
