

FREECALL 1800 251 766

Design your Sani-Kennel™ in 4 easy steps!

Four easy steps:

1. Choose your panel
2. Choose your gate that compliments the panel you select
3. Choose your accessories
4. Provide your dimensions or layout and Therian will provide complimentary design consultation and computerised drawings for your unique space and needs

Any choice you make will provide you with an enclosure system that is attractive, durable and of high quality.

Mason will customise your SaniKennel™ based on your specifications to fit your unique space at no extra cost.

Many of our SaniKennels™ are installed by our customers. However we do offer installation assistance through our Mason Construction subsidiary. This assistance can be as little as a technician to help you get started, to as much as a complete factory-trained installation team. Therian can help you set up your equipment correctly for a guaranteed price. Ask for an installation quote along with your materials quotation.

To learn more about SaniKennels and have your questions answered, call Therian on 1800 251 766 today.

Step 1: Choose your panel

Stainless Steel Panels: Mason's Finest

- 100% stainless steel construction
- Adjustable 16ga. stainless steel floor mounting system for a watertight seal on sloped floors
- Framework is 16ga. 304 stainless steel square tubing that is miter-cut and hand welded at every intersection
- Isolation 4' high with two sheets of 20 GA. 304 stainless steel and internal sound deadening core with welded wire above
- 10 year standard warranty

Wilsonart Panels: Make a Fashion Statement

- Hundreds of Wilsonart decorative finishes available
- Polypropylene fluted core panel construction (no natural fibers) will not absorb moisture
- Aluminium framework
- Patented Sani-Slope floor seal system adjusts to various floor slopes while maintaining a water tight seal between runs
- Choice of stainless steel, galvanised, or polyethylene grid top sections

Choose from the following three Wilsonart lines:

- The Standards
- Wilsonart Home
- WilsonartHD
- Go to Wilsonart.com to see the unlimited color options

FRP Panels: A Great Look and Value

- FRP (fiberglass reinforced plastic) isolation panels resist scratching, staining, odor and moisture
- USDA Certified antimicrobial surface is easy to clean and sanitise
- Aluminium framework is strong and rust-proof
- Patented Sani-Slope floor sealing system adjusts to various floor slopes while maintaining a water tight seal between runs
- Available in 11 decorative colors and choice of stainless steel, galvanised steel, or polyethylene grid top section for proper airflow

11 Decorator Colors:

combinations (glass, wire, Wilsonart, FRP) in each gate section available

Step 2 Continued: Optional Features

Silvis Seal: Cross Contamination Problems Solved

- Patent pending design
- Prevents cross flow of fluids underneath panels - stops the spread of disease
- Molds to the contours and imperfections of your floor
- Aluminium Sani-Slope "T" provides adjustment to accommodate the slope of the run
- Holds up to common cleaning chemicals such as bleach and ammonia
- Provides a secondary seal for the life of the equipment
- Provides peace of mind that the runs will maintain positive isolation between one another
- Withstands high pressure power washing systems
- Ends are capped preventing fluids from getting underneath the seal

Stainless Steel Slide Gates: Another Customised Product

- Patent-pending latch design is trouble free and easy to operate
- Units allow for narrower aisles to maximise space
- Custom manufactured to any size desired to maximise a buildings footprint
- Capable of being pad locked for increased security
- Made of all stainless steel components
- Comes with the same 10-year warranty offered on all Mason stainless steel gates
- Available in FRP, Wilsonart, and tempered glass configurations
- Provides peace of mind that the runs will maintain positive isolation between one another
- Prevents aisle way obstructions when doors are left open
- Can be opened by kennel personnel from either outside or inside run

Step 3: Choose your accessories

Stainless Steel Bowl Brackets

- No need to enter the run or enclosure with this bowl bracket designed for Mason's stainless steel bowls
- Convenient design features no sharp edges
- Swing-down door automatically latches when closed

Stainless Steel Bowl Brackets

Automatic Waterer

Automatic Waterer

- Keep your dog or pet health with a constant supply of fresh cool water using Nelson's Automatic dog waterer Model 1200
- A self waterer unit that provides a constant supply of fresh clean water and eliminates the hassles of manually watering your dogs and pets.

Top Covers

- Top covers provide animal security and owner peace of mind, while creating a more finished appearance
- Made from durable, high quality materials you expect from Mason Company
- Customised for any kennel or run
- Available in wire or polypropylene grids
- Clamp on to gate, side panel and back panel frames

Rest Benches

- Dogs love rest benches
- Mason rest benches keep dogs clean and comfortable, and off of wet or soiled floors and drains
- Our rest benches are constructed of the highest quality aluminum or Gatorshield® structural steel tubing
- Swing-up and freestanding styles
- Ideal for Mason Isolation Kennels
- Swing-up rest benches allow easy drain access and cleaning by kennel staff

Kenl-Dors®

- Kenl-Dors by Mason are considered to be the industry's most efficient vertical lift doors
- Accommodate a variety of needs
- Wall Mounted Kenl-Dors provide controlled indoor-outdoor dog access
- Panel Mounted Kenl-Dors can be mounted to any Mason back panel or division panel
- All Kenl-Dors glide easily in specially designed, heavy-duty aluminium channels
